

Hey Prayer Warriors,

Quick update! Carl will be flying (Lord willing) on a military flight on Tuesday (3am) from Montreal. He is disappointed that he was not able to go earlier, but the commercial flight he was supposed to take got cancelled. He is looking forward to going back to Haiti. We will be attending our home church (Moncton Wesleyan) tomorrow morning! yeah!

We received a list of prayer requests from Dr.Kris Thede who is a missionary with Global Partners. I thought it would be nice to share them with you.

### **Prayer Requests (Feb.10)**

- Hundreds of thousands in need of: tents, food, water, medical care, school supplies, jobs, spiritual teaching.
- Safety from additional earthquakes and mudslides as the spring rains start.
- Health despite the risks of living outside under sheets and in tent city-malaria, typhoid, dysentery, respiratory flu, stomach flu, measles, mumps, meningitis, Dengue fever etc.
- Continued medical care for injuries and trauma directly caused by the earthquake. Adjustments for the hundreds of amputees.
- Additional supplies and medical personnel for the Petit Goave clinic. We just learned that the hospital has been shut down and so the Wesleyan field clinic is now a hospital complete with surgery, emergency care and in-patients.
- Care for orphans and elderly who have lost caretakers.
- Psychological stress and illness from the trauma as well as stressful living conditions and risks.
- Missionaries-change of job descriptions, heavy schedules as deal with personal stress. Working outside skill sets and comfort zones.
- Team organization, supplies, travel and projects-many people still coming to help. No commercial airline flights yet to Port-au-Prince.
- School restarting in many areas with new students from Port
- Planning of the rebuilding of Port: dealing with food distribution, housing, medical care, school, jobs.
- Communities and missionaries who depended on Port-au-Prince for purchase of supplies, guesthouses, government paperwork.
- Additional costs- supplies, food, medical supplies, travel.
- That opportunities to witness about eternal life will not be pushed aside by the pressing needs of this life.
- Political stability- Growing protests about not enough help, to slow

Serving with you,

The Gilles
